

ONGO®Active Point – energy store for the office

The ONGO®Active Point is a cabinet table that can be moved on wheels, including space for three ONGO® stools and ONGO®Balance Plates. Unpacked or stowed away again in no time, the ONGO®Active Point serves as a temporary storage- and workstation in the office and as a spontaneous meeting table at the same time. With its four large, lockable castors and handle in the top, the ONGO®Active Point can always be used wherever there is a need for sitting and meeting. And with ONGO® stools, sitting becomes more dynamic, giving tired employees new energy.
